

ABDULAHAD HUSSAIN

Full-Stack Web Developer ◇ Backend Developer (Node.js) ◇ Frontend Developer (React/Vue)

abdulahadhussain60@gmail.com ◇ <https://linkedin.com/in/abdulahad018> ◇ <https://github.com/ABDULAHAD118>

+92 3071390118 ◇ Lahore, Pakistan

OBJECTIVE

Developed scalable full-stack web applications using React, Next.js, Vue, Nuxt, Node.js, Express, and AdonisJS with hands-on experience in frontend, backend, databases, and deployment workflows. Built and optimized RESTful APIs, improved application performance, and developed responsive user interfaces for real-time business applications. Skilled in MongoDB, MySQL, Redis, Docker, Git, and CI/CD pipelines. Passionate about building high-performance and scalable web solutions.

SKILLS

Languages: TypeScript, JavaScript, Python, C++, SQL

Frontend: React.js, Vue.js, Nuxt, Next.js, React Native, HTML, CSS

Backend: Node.js, Express.js, AdonisJS, REST APIs, JWT Authentication

Databases: MongoDB, MySQL, Redis

Tools: Git, Docker, Postman, CI/CD, Linux

CORE COMPETENCIES

API Development, RESTful APIs, Microservices Architecture, Authentication (JWT), Authorization Systems, Database Design, Performance Optimization, Cloud Deployment, CI/CD Pipelines, Docker, Scalable Backend Systems

EXPERIENCE

Full-Stack Web Developer

June 2025 - Present

BitLogiex

On Site

- Contributed to enterprise-grade web applications across frontend and backend systems using Vue, Nuxt, React, Next.js, Node.js, and AdonisJS.
- Designed and optimized 15+ RESTful APIs, improving response performance by 30%.
- Implemented secure authentication and role-based authorization using JWT.
- Integrated MongoDB, MySQL, and Redis for scalable data storage and caching.
- Automated CI/CD pipelines using Docker, reducing deployment time by 40%.
- Optimized frontend rendering and backend query performance for improved system efficiency.
- Collaborated with cross-functional teams to deliver production-ready software solutions.

Frontend Web Development Intern

May 2024 - Aug 2024

WebDev Masters x ECC International

Remote

- Built responsive web interfaces using HTML, CSS, JavaScript, React.js, and Bootstrap.
- Developed reusable frontend components improving UI consistency and maintainability.
- Collaborated with mentors and team members on real-world frontend projects.
- Improved UI performance and responsiveness across multiple devices.
- Achieved 1st position among internship participants based on performance and project delivery.

PROJECTS

OLA TMS. Built a scalable Transport Management System using Vue.js, Nuxt, Node.js, AdonisJS, and MySQL. Implemented real-time vehicle tracking, authentication system, driver management module, and RESTful APIs. Optimized database queries and improved frontend responsiveness for enterprise operations.

Bite Savor. Developed a full-stack food ordering platform using React, Node.js, Express, MongoDB, and Stripe. Implemented authentication system, payment gateway integration, order tracking, and admin dashboard with responsive UI.

Zabaan-e-Kissan (AI-Based Smart Farming Assistant) - Final Year Project (FYP). Developed an AI-powered mobile application enabling farmers to interact via voice in Urdu and English for agricultural assistance. The system includes crop disease detection, AI-based treatment recommendations, real-time market prices, and weather-based crop suitability analysis.

EDUCATION

Bachelor of Computer Science, University of Engineering and Technology, Lahore Expected Oct 2026

SOFT SKILLS

Problem Solving, Team Collaboration, Communication, Leadership, Time Management, Analytical Thinking

CERTIFICATION

- **Full Stack Development Internship Certificate**, Bitlogicx 16 Jun 2025 - 15 Sep 2025
- **Frontend Web Development Internship**, WebDev Masters May 2024 – Aug 2024
